

Attention Fitness Club Owners!!!!

Remember when your courts once looked like this?

Bright, white and clean!

Tired of high energy and lighting maintenance bills? It's up to you to decide....

white AES induction....or....ugly metal halide?

Actual side-by-side comparison

And now they look like this!

Dark, dingy, blue or green!

This client saved about 1500 watts per racquetball court and have them controlled by motion sensors too!!!!

They installed the creative AES induction system and now their courts....

- Are instant on!
- Will never shift color!
- Will stay bright for years!
- Will last 100,000 hours!
- Will qualify for energy rebates!
- Will qualify for a Federal Tax credit!

In addition, the AES induction system carries a 10-year warranty.

Call us to see how AES Induction products can improve your other interior and exterior lighting applications.

Go beyond GREEN...Go **SUSTAINABLE!**

Do what.....

did.....

and install this....
