

Go from this....

.....old color shifting metal halide or yellow HPS

To this...

..... to bright white 100,000 hour AES induction

Or from this....

....beat up and ready for the trash heap

To this...

....refurbished and totally sustainable!!!

It makes sense and saves energy and with a new AES 80-watt induction system your fixture will last another 20 years!!!! AES Induction is whiter, brighter, instant "on" and will never shift colors. This super lamp is rated for 100,000 hours of life and comes with a 10-year system warranty. Other AES induction lamp shapes and wattages are available for many other applications as well as new fixtures.

Contact me to see how you can become truly "green & sustainable".
